DEATHS.

MRS. NEWT EHART
died at her home in Saline, N. D., on March 22nd, of a paralytic stroke, aged about 50 years. She moved to Dakota from near Sweet Springs with her husband about two years ago. She was a sister of Leeper and Geo. King, of that vicinity.

OPA PEARSON
died at the home of his parents, Mr. and Mrs. Geo. Pearson, at Little Rock, early Tuesday morning of heart trouble, aged 18 years. He had been ill 17 days of pneumonia. Opa was a splendid young man who was liked and loved by all who knew him. His remains were laid to rest at Arrow Rock Wednesday, after services conducted by Rev. Rainey.

EDWARD JOSEPH EDWARDS
was run over by a car in Kansas City Monday and instantly killed, as he was on his way home from school. He was the 6-year-old son of Mr. and Mrs. E. M. Edwards, who formerly resided in Saline. The mother was formerly Miss Lulu Hawley of Blackburn.

The remains were brought to Marshall and laid to rest in Ridge Park Cemetery Wednesday at 1:30 p.m. after services conducted by Rev. Russell.

LIVE STOCK MARKET.

National Stock Yards, Ill.,
March 28, 1906.

Receipts were very light here the fore part of the week; in fact Monday's receipts were the lightest for several months past. The almost impassable condition of the country roads is responsible for a great part of the falling off in receipts. The market, while some lower than to-day week ago, is steady with the close of last week and in some cases some higher. Some decent kind of steers sold from 4.90 to 5.40, with few good enough to bring over these prices.

A good many fair to good beef cows sold from 3.25 to 4.50. Good heifer stuff scarce. Not enough coming to supply the demand. The most of the offerings were the 3.75 to 4.25 kind; not very many good enough to bring over 4.40. The market is considerably lower than a week ago. Cannery and cutters slow sale. The bottom has dropped out of the veal calf market. Good to choice veals selling from 5.00 to 6.00 per cwt. Absolutely nothing doing in the stocker and feeder line worth mentioning. There is some inquiry for good qualified steers.

As in the case of cattle, Monday's hog run was the lightest for months and the run since has not been up to the standard. Very little change has been noted in prices the past week and the market to-day is just about where it was a week ago—top 6.50 bulk of sales 6.35 to 6.45.

Several loads of western lambs sold this week around 6.15 and some clipped western wethers at 5.40. Receipts light and include few good native sheep for which there is a good demand.

Died Among Strangers

Wm. Kolb, who claimed Moberly for his home, was taken sick and cared for by Henry Krumsiek, of Shackleford, several weeks and Saturday Mr. Krumsiek took him to the county farm, where he died Sunday morning of pneumonia. The man was about 55 years old. His remains were buried in the Potter's field Monday. He claimed to have a small bank account, which will be investigated by Mr. Oser. Mr. Krumsiek deserves much credit for playing the good Samaritan in caring for the old man for weeks.

The Temperance Meeting

The union temperance meeting of all the churches held at the Christian church Sunday afternoon was well attended. An interesting and instructive program was enjoyed by all.

The main features of the meeting were the three addresses delivered by Dr. C. H. Briggs, Rev. J. E. Abbott and Rev. O. S. Russell.
Mrs. H. S. Davis, president of the Marshall W. C. T. U., and who has taken a great interest in the work, presided. After several splendid musical selections the speakers were called upon.

Dr. Briggs spoke first. He is one of Marshall's most fearless and earnest ministers. His address was well worth publishing did the space permit. Besides portraying plainly the conditions existing in Marshall and elsewhere as a result of the liquor traffic, he also said a few things that would have made some of Marshall's saintly officers blush with shame—things that we would not dare say if we had regard for our life. He said he believes that Marshall has more good people in it than any city of its size that he knows of and also the reverse.

Rev. Abbott followed with a strong talk on the evils of intemperance and the big advancement made during the past fifty years towards a right sentiment. It looked to him that at the rate the world is improving the millennium is not far off—the reform has struck Missouri, but not Marshall.

Rev. Russell closed with a more general talk on the subject. Referring to Marshall, said if he was elected to office here he would do as the present officers are doing. They know who elected them and what was expected of them and were no doubt doing their duty towards their supporters. He does not believe it right for an officer to go back on those to whom he owes his position or on the policy to which they are pledged. The right men should be elected.

Going to Get Married

Rev. Harrison Green, a colored pastor of this city, left this week for Cairo, Ill., and is expected back today with a wife. He is one of Saline's well-to-do colored men.

Passenger Train Derailed

The east bound passenger on the Missouri Pacific (No. 32) which passes at 9:45 a. m. was derailed Tuesday morning about a mile east of the depot.

The train had a good many passengers aboard and all received a good shaking up. It was almost a miracle that no one was injured.

A wrecking crew came up from Jefferson City and by 6 o'clock that evening had the track clear.

The most common cause of eye troubles is a defect in the curvature of the eye ball which causes light to focus either in front or back of the retina.

To overcome a defect of this kind, one has to strain the muscles of the eye, which causes headaches, nervousness, etc.

We make a careful examination of your eyes, inform you of the cause of your trouble, and make no charge for examination.

ELECTRIC RAILWAY

Now Up to the People to Get Busy.

A few days ago, the Central Electric Railway Association was organized with D. D. Duggins, president; B. F. Naylor, F. W. Miles, and T. H. Harvey, vice-presidents; Geo. H. Althouse, secretary; C. D. Newton, assistant secretary; and H. C. Francisco, treasurer. The object being to actively push the work necessary to be done, before we can secure the North and South Electric Railway.

This association now has active charge of securing the right of way and taking subscriptions for bonds, and stand ready to furnish all information and do all other things found to be necessary to further this enterprise of building and "up-to-date" Electric Interurban Railway between Marshall and Sedalia, and between Marshall and Miami.

The officers of this association have carefully investigated and find that the proposition is made in good faith, and that the money is ready to build the road. They also report that matters are progressing favorably, and that the road will be constructed just as soon as the people do their part in giving the right-of-way and subscribe to their proportion of bonds.

This being the case, now is

the time for the people to get busy, and every man, woman and child should do something to aid in securing this much needed railway transportation facility.

Yes, it is up to the people, and it does seem that with this long siege of muddy and almost impassable roads, the dire necessity of an Electric road has been fully demonstrated and emphasized, and that this territory will always be hampered until this road is built.

Therefore fully realizing that we need this Electric road, and also knowing what we have to do in order to get it, let us "get busy" and stay at it until our part of the work has been actually performed.

You want the roads—What will you do? If this road runs through your land, give the right of way. If you are within five miles of it, subscribe for some of the bonds. Do something, then you cannot be blamed if the road is not built, otherwise you will be subject to censure, when you refuse to aid an enterprise which puts in circulation \$1,500,000; enhances the value of your property from 10% to 50%, and gives new life and thrift to the community.

We suggest that the people respond promptly, and give the several committees every encouragement possible, and by a united effort we will secure one of the best and most advantageous enterprises ever offered our community.
